ESSCA reaccredited by EQUIS until January 2025

For the third time running, ESSCA has received EQUIS accreditation, a label awarded by the EFMD for all of the School's programmes (Bachelor, Master in management, Masters of Science, and Specialised Master).

The accreditation serves as proof of the high academic quality (both in education and research) of the institution, as well as its very close ties with companies and its international dimension.

ESSCA can confirm that it remains part of a prestigious circle of 88 triple crown EQUIS, AACSB and AMBA-accredited schools of management in the world. Since 2017, ESSCA has featured among the top 1% of business schools worldwide.

*“EQUIS has the greatest value for the school **as it testifies that the academic offering at ESSCA is of the highest quality.** It is important for all students, especially international ones, to know that, at ESSCA, they are joining a world-class business school where they will receive a state-of-the-art education in management based on first-rate research by an outstanding faculty. EQUIS recognises that.*

*Maintaining EQUIS accreditation is part of ESSCA's strategy. Indeed, Quality is one of the three pillars of our Odyssey 20/24 development plan. The EQUIS accreditation is the best proof of quality for a business school. Being EQUIS accredited ensures that ESSCA is aware of and observes the most rigorous and exacting international standards of quality in higher business education. **Being EQUIS accredited also shows that the school has adopted a truly international perspective.**” states Jean Charroin, Dean of ESSCA School of Management.*
